FROM KING LUMINAIRE

THE TRAFALGAR BENCH - KDB25

At King Luminaire, we know that the quality of workmanship is just as important as the design itself. Inspired by

the goal to complement our lighting products, King Luminaire is proud to introduce the KDB25 Trafalgar Decorative Bench.

Constructed of a 2" square steel frame and IPE wood slats, the KDB25 Trafalgar bench offers a solidly constructed frame with rustic wood seating. After the frame is galvanized, it is finished with King Luminaire's durable "KingCoat" powder coat paint finish. The KDB25 comes standard with IPE wood seat slats but other materials are also offered. The bench can be customized with a plaque inset, ideal for in memoriam dedications or other designation. Available in either 4, 6 or 8 foot lengths, each is equipped with anchor bolt mounting tabs to deter theft or vandalism. The KDB25 is also offered in a backless bench model.

Backless bench option

Decorative scrolls on the bench legs and cast ball finials further add to the pleasing design. Finished in any of the appealing array of King Coat colors, the KDB25 Trafalgar bench provides style that will add character to any setting.

Standard, premium and custom paint colors available, please contact us for details.

THE TRAFALGAR BENCH - KDB25

IPE (ee-pay) is a South American hardwood that is one of the strongest and hardest materials available

making it ideal for use with outdoor site amenities. Due to its dense cell structure, it is extremely durable and resistant to splintering and checking and is also highly resistant to vandalism. It also resists rot, mold and insect infestation without the use of toxic chemicals and is naturally fire resistant. It has one of the highest decay resistance ratings, 25+ years, but is known to last much longer. Harvested from sustainable forests only, it is light brown in color. The effects of the sun eventually change it to a beautiful silver patina color.
