

KingCoat™ Powder Coating Solution

KingCoat™ Powder Coating

A super durable exterior polyester powder blend of non-volatile ingredients is applied dry and fused into a continuous film by heat. This warranted service features excellent film appearance plus superior outdoor exposure qualities and outstanding corrosion and barrier protection, with quality guaranteed through a multitude of Quality Control procedures such as 4,000 hours of salt spray testing for steel, aluminum, cast iron and cast aluminum.

Our finishing options provide reliable protection, have outstanding chemical resistance, excellent hardness, and are available in a wide variety of colors. Finishes are available as textured or smooth depending on color selection, and alternatively, color matching for specific requirements as applicable.

Sample Color Swatches*

Gate Gray

Black

Gold

Brown Metal

Chicago Bronze

Federal Green
